PROFILE

A results-driven Software Engineer and Full-Stack Developer with over four years of experience in designing and developing user-centric applications. My expertise spans both front-end and back-end development, systems architecture, and database management. Proficient in a wide range of programming languages and frameworks, I specialize in creating robust, scalable, and efficient software solutions that are visually appealing and provide seamless user experiences. I am passionate about building solutions that meet high industry standards and push the boundaries of innovation. I am eager to bring my extensive technical knowledge and passion for problem-solving to drive success in your team.

WORK EXPERIENCE

Full-Stack Developer & Instructor

Rukatech Computer College   July 2024 - Present
Itanin, Ijebu-Ode, Ogun State, Nigeria

- Spearheading web development projects, mentoring students in full-stack development, including HTML, CSS, JavaScript, and modern frameworks like React and Angular.
- Developed and deployed an internal learning management system (LMS) using Flask, SQLAlchemy, and Bootstrap, streamlining the assignment submission and grading process for over 300 students.
- Optimized the institution's website performance by integrating caching mechanisms using Redis and enhancing the server infrastructure with Nginx and Gunicorn, resulting in a 40% reduction in page load times.
- Led workshops on best practices in web design and deployment, empowering students to build responsive, scalable web applications using modern web technologies.

Full-Stack Developer & Software Engineer

Sikru Adetola College Of Education   March 2020 - June 2024
Itanin, Ijebu-Ode, Ogun State, Nigeria

- Designed and implemented a project management system connecting 120+ students with lecturers, improving workflow efficiency using PHP, MySQL, and JavaScript.
- Developed an interactive transportation system for the campus, enhancing traffic flow efficiency by 20%.
- Worked closely with academic staff to automate administrative processes through custom-built web applications, reducing paperwork by 50%.

Full-Stack Developer & Software Engineer

NACOS-SACOETEC Chapter   June 2021 - June 2024
Itanin, Ijebu-Ode, Ogun State, Nigeria

- Managed and upgraded the chapter's e-voting and quiz systems, ensuring secure and reliable performance during elections and exams for over 200 members.
- Introduced an online payment system for membership fees, improving financial compliance by 60%.
